## Crippen to Give Evidence Philadelphia Wins 12-5. "Y" Fund up to \$15,000

### IMMENSE CROWD WITNESSES FIRST GAME ON THE CHICAGO WEST SIDE BALL GROUNDS

Game Was Very Even for the First Two Innings With Both Teams Batting Hard

#### REULBACH BENCHED IN SECOND

McIntyre [Who Relieved Him Was Touched up for Five Runs, Chance Benched for Kicking]

Chicago, Oct. 20.—A light rain this morning accompanied by a sharp drop in the temperature pre-empted any comfortable condition for the third game of the world's championship series. A no more rain was in sight however, it was regarded as certain that the game would be played.

The diamond covered by canvas did not suffer more than the old-field was. There was a long shivering rain, but the fans who lined up on the grounds when day broke, waited patiently for the game to start. The crowd, it was regarded as certain that Ed Reulbach would pitch for Chicago, but Connie Mack will make his choice in advance. He said he would not select his men until he had seen the field and had seen the players in practice.

The general belief was that Mack's choice would be between Combs and Plank with the former the more probable selection. The Philadelphiaans passed a restful night and seemed perfectly fit when they appeared at breakfast. The home team was in high hope of winning today's game. Having suffered two defeats they believed victory was due them on the look of game if for no other reason.

**Philadelphia**

Murphy, rf. . . . . Steinfield, cf.  
Barry, ss. . . . . Tinker, ss.  
Thomas, c. . . . . Kling, c.  
Combs, p. . . . . Reulbach, p.

**First Innings**  
Philadelphia.—Strunk was given base on ball. Strunk went to second on Lord's sacrifice bunt, latter going out Reulbach to Chance. Sheppard took Collins' Texas League. Strunk scored on Baker's single to centre. Baker out stealing. Kling to Tinker.

**Chicago** — Sheppard walked. Schulte doubled into the centre field overflow crowd. Sheppard going to third. Ground rules allowed only two bases on hit into overflow crowd. Sheppard scored on Hoffman's sacrifice fly to Strunk, Schulte taking third. Chance struck out. Zimmerman's high fly fell into Strunk's hands. The run.

**Second Innings**  
Philadelphia.—Davis was passed on four pitched balls. Murphy grounded out. Steinfield to Chance. Davis reaching second on the play. Barry doubled into the left field crowd, scoring Davis. Thomas' line drive was captured by Schulte and Barry was held at second. Barry scored when Combs hit to two bases in to the right-field crowd. Chance and Reulbach conferred. Kling joining. Reulbach resumed. Strunk went out. Zimmerman to Chance. Two runs.

## SPORT EXTRA

TEAMS—(Score by innings)	R.	H.	E.
Philadelphia .....	125	000	400
Chicago .....	120	000	020

Chicago, Reulbach and Kling. Philadelphia, Combs and Thomas.

Chicago.—Steinfeld popped to Barry. Tinker doubled down right field and Kling went out. Baker to Davis. Tinker taking third. Beaumont batted for Reulbach. Beaumont walked. Sheppard also receiving a free passage, filling the bases. Tinker and Beaumont both scored when Schulte hit for two bases to left. Hoffman struck out. Two runs.

Reulbach was shaky in the second but after a conference between the pitcher and Manager Chance, he fished out two innings. Hoffman scored. Beaumont batted for Eddie in the second, and McIntyre went to the slab in the third. The hopes of the Chicago fans were rudely dashed to the ground, as McIntyre proved far from the puzzle to the Athletics. He was on Monday when he relieved Orr. After being hit freely, he in turn was sent backhanded, and Pfister took up the burden.

During the fusillade in the third, when Philadelphia sent five runs across the plate, Capt. Chance disputed vigorously one of the umpire's decisions, and was put out of the game. Jimmy Archer, the Toronto boy, taking the "Peerless Leader's" place on first base.

**Murphy's Home Run.**  
Third Innings—Philadelphia: McIntyre pitching for Chicago. Sheppard made a running catch of Lord's long fly. Five runs began falling but game was not interrupted. Steinfield barely able to catch Collins' long hit which was safe. Collins scored when Schulte let Baker's single pass him. Baker made third on the error. Davis hit by pitched ball and went to first. Murphy knocked a home run in the screen into right field bleachers. Baker and Davis scoring ahead of him. Chicago's entire infield gathered to insist that under ground rules Murphy should be merely a double. Proteus availed them nothing. Chance ordered off the field for continuing his protest. Archer taking his place at first. Pfister replaced McIntyre in the box. Barry knocked first ball pitched into centre field crowd for two bases. Barry scored when Thomas hit to Tinker and latter threw badly to Archer. Thomas was doubled at second on Combs' hit to Zimmerman. Zimmerman to Tinker to Archer Five runs.

Chicago.—Archer went out. Baker to Davis. Lord captured Zimmerman's fly. Steinfield struck out. No runs.

**Fourth Innings**  
Philadelphia.—Strunk flied out to Hoffman. Lord sent a clean single to right center. Collins forced Lord at second. Pfister to Zimmerman. Collins out. Kling to Tinker. No runs.

Chicago.—Tinker struck to right. Double play disposed of Tinker and Kling. Barry to Collins to Davis. Pfister out. Baker to Davis. No runs.

**Fifth Innings**  
Philadelphia.—Baker was retired.

#### WHAT MR. POTTER ADVISES.

In a nutshell, Mr. Alexander Potter's recommendations which are embodied in his report on sewage and water systems for Edmonton, are as follows:

"The immediate installation of a double sewer, ten feet, six inches in diameter from the mouth of the present Rat Creek sewer directly south to the river, which will be an outlet for practically all the future sewage of the city, leaving Rat Creek open for reclamation; the sewage now discharged at the Saskatchewan Avenue outlet to be treated in a purification plant to be located in the old exhibition grounds.

The continuance of the present source of water supply at the present station and to purify the water year around; the installation of either steam turbine driven or motor driven centrifugal pumps near the present station; the breakdown of the filtration plant, even for a few days might result in an epidemic of disease."

### REACHED AGREEMENT. Premier Sifton Says Compensation for Buildings Was Fixed—Details Later.

An agreement has been arrived at as to the compensation to be paid by the Alberta government to the Dominion for the buildings taken over by the province from the federal government, according to Premier Sifton who returned from Ottawa last night, where he was in conference with the authorities there in connection with the matter. Further details, however, will not be given out until later.

### DID PLASTERERS CAUSE THE STRIKE

Secretary of Builder's Exchange Makes Statement Putting Blame on Union.

### A MEETING WAS CALLED TO CONSIDER DEMANDS, BUT MEN GOT WORK NIGHT BEFORE.

Practically no plasterer in the city was at work yesterday, and no more towards a settlement has yet been made. When seen by a Capital reporter with reference to the open letter from the secretary-treasurer of the Plasterers' Union laying the blame on the Master Plasterers' Association for not having come to time sooner, Mr. A. O. Wetmore, the secretary of the builder's exchange, said:

"Our purpose in refusing to sign any agreement now is not that we wish to force on the plasterers a lower rate of wages in the spring when work is scarce but that the spring is the only time of year to make an agreement. We fear to create a precedent for making agreements a year before hand."

"The plasterers sent us a draft agreement and a letter on October 17, informing us that if we did not sign the agreement by October 15 they would strike on the 18th. As the regular meeting of the Master Plasterers' Association was not to take place until October 12, and since between the 12th and 15th the time was practically all taken up with the meetings

(Continued on Page Four.)

### M.H.O. DOESN'T LIKE MR. POTTER'S PLAN

Thinks Danger in Keeping Water Supply Source Where It is At Present.

### CITY WILL GROW TO WEST

And If Filtration Plant Broke Down a Serious Epidemic Might Result.

Dr. Whitlaw, medical health officer, was asked his opinion this morning, of engineer Potter's recommendation that the city water supply should be taken from the present point, expressed some doubt, as to the advisability of such an action, in the interest of the public health.

"I do not think it is desirable," said Dr. Whitlaw, "inasmuch as there are certain areas of the city in the west end which will eventually be used for residential purposes, and which must be supplied with sewer."

The sewerage from this area being lower than the general level cannot be carried to the higher level without pumping, which would be a very expensive process. In any case whatever filtration proposal is adopted, the best possible action should be obtained. Innocence is better than repentance as regards the water supply. As the city grows westward the contamination of the water above the present intake pipe is sure to take place and a failure or breakdown of the filtration plant, even for a few days might result in an epidemic of disease."

### EXPECT TO GET OVER SIX THOUSAND TODAY

Great Enthusiasm Shown in Y. M. C. A. Campaign—One Man Gave a Two Thousand Dollar Subscription.

"How's the campaign going, Mr. Brockel?" was the question the Capital asked the chief of the Y.M.C.A. campaign at noon today.

"Pretty good, I think," was the reply, "this is one of our critical days and we are expecting great things."

The Y. M. C. A. has about 10 men working hard for the cause and it is hoped that today will be the best day that the campaign has had as yet.

The clock above Burnham - Frith's was in serious danger of falling this morning, owing to the high wind, but strenuous efforts on the part of Mr. Brockel prevented any accident, and it is in place waiting for the hand to jump \$8,000 or \$9,000 when the results come out this evening.

"I've left all my letters unanswered this morning," said a business man, "and they are going to stay unanswered till I am through with this scheme."

That was the spirit of the second banquet held last evening at the Y.M.C.A. rooms to hear reports of the various captains of the teams competing in the augmentation

campaign. Humor and enthusiasm ran riot and the climax was reached when Mr. Marshall announced a subscription received today for \$2,000 when all order was forgotten and the crowd broke out into "He's a jolly good fellow."

The banquet began at 6:30 when some 50 men sat down to tables in the Y.M.C.A. parlors. The tables were cleared at 7:30 and Mr. J. W. Clarke, the chairman called for a speech from Mr. W. W. Chown, while the captains prepared their reports.

Mr. Chown referred to the opening of the campaign on Sunday by an explanation to the public of the Y.M.C.A.

"There is something in a movement upheld by hard-headed business men like James Stokes, who is building a Y.M.C.A. in Russia because he believes it is a good investment," said Mr. Chown. "One railway in the States that carries 3,000,000 passengers a year, is putting an association building at every divisional point because it believes it pays them to do so. If Edmonton invests \$46,000 in the Y.M.C.A., she will receive it all back."

These banquets, this movement is a splendid advertisement for the city. An American told me the best bit of publicity his city had was the raising of \$200,000 for the Y.M.C.A. last year."

The reports of the captains were as follows:

- Buchanan, \$600.
- Dingle, \$348.
- Gilbert, \$315.
- Hutton, \$317.
- Kewenaw, \$174.
- McLeod, \$255.
- Rice, \$70.
- Marshall, \$2,215.

With a total for the day of \$5,044 Mr. Marshall was cheered till the walls rang. In answer to the congratulations he said:

"I am glad you have given our committee such a send-off. The \$2,000 was not due to me, but to two members

### PRIMATE OF GALICIA ARRIVES NEXT WEEK

Archbishop Szeptycki, of Lemberg, Galicia, Visiting Ruthenians in Western Canada, Will Be Greeted on Arrival by Delegations of Greek and Roman Catholics.

Archbishop Szeptycki, of Lemberg, Austria, Primate of the province of Galicia, will arrive in Edmonton on Wednesday, October 20th by special train from Maudsley. The archbishop is touring Western Canada visiting the Galician colonies established throughout the prairie provinces. At present he is in Winnipeg from where he will travel to Rosthern, the centre of a large Galician settlement. From Rosthern he will proceed to Maudsley to meet members of another large colony. Here he will bless the church whose corner stone was recently laid by Sir Wilfrid Laurier. After remaining there until the following Wednesday he will come by special train to Edmonton on the afternoon of that day.

A delegation of Ruthenian Catholics will meet him at the depot and in the evening a large meeting will be held in the Ruthenian Catholic Church on Xanago avenue, to be addressed by him. During his stay in Edmonton which will last until November 1st, he will be the guest of the Rev. Father Hura.

The church of which he is representative is the Greek branch of the Roman Catholic church differing from the latter only in language and ritual and is entirely distinct from what we know as the Orthodox Greek church. There are 150 families in Edmonton and five in Shababong, adherents of this sect so that his work here will be perhaps the most important in Western Canada.

### Are These Charges True?

Editor of the Capital:  
Sir—After an investigation of the numerous reports of atrocities committed in railway construction camps as regards both men and animals, I am satisfied that the conditions of existence for both laborers and teams are unspeakably abominable and cruel beyond conception.

Many reports have been made to me as secretary of the Alberta Humane Society that horses and mules have been worked until they could move no longer and in some cases men have been discharged for refusing to drive teams whose necks and shoulders were a mass of festering sores.

It is alleged by men whose veracity I have no reason to doubt that

(Continued on Page Five)

### CRIPPEN IS TO TAKE STAND

Evidence for Prosecution Is All In and Crippen's Counsel Outlines Defense.

#### MANY WOMEN IN COURT

And They All Appear to Take Great Interest in Recital of Crime.

(Canadian Associated Press)  
London, Oct. 20.—It was four in the afternoon when Tobin finished his impassioned speech which Crippen followed with the closest attention. Sensation ran through the court when Jenkins, junior counsel for the defence, uttered the words, "Harvey Hawley Crippen."

The prisoner with a quick step, forced his way through the crowd to the witness box.

To the first formal question regarding age, he answered in a quiet tone, hardly uttered. Requested to speak up, he answered that he had a theoretical training in surgery, but had never had any practical experience.

London, Oct. 20.—Vincent Crippen stepped into the dock this morning he was noticeably paler than a suspicion of irony was discernable on his features, which till now have been inextinguishable.

Dr. Spalebury, pathologist, St. Mary hospital, was of the opinion that the mark on the skin of the body was the result of an operation and not as the defence allege, a mark resulting from a folding of the skin after death.

Quite half of the public in the court were ladies who seemed fascinated with the gruesome details concerning the ghastly remains.

Dr. Marshall, police-surgeon, said he agreed with Pepper's evidence that the mark was the scar of a wound and also thought that discretion must have been done by some one possessing considerable skill and anatomical knowledge.

After several minor witnesses had linked up the main chain of evidence, Dr. Wilcox, home office analyst, answering Olddie, junior counsel for the Crown, said that the remnant of pajamas buried was identical with other pajamas found in Crippen's boxes. He also declared the mark on the skin was due to surgical operation.

Relating his examination for mineral elements, Wilcox said he had found traces of arsenic and carbolic acid. These, however, were the results of disinfectants used and the presence had no significance. He found in the stomach one thirtieth of a grain of hyoscyne, in the intestines one fourteenth, in the liver, one seventh, and in the lungs, one twelfth, and also a trace in the lungs.

Answering Olddie, Wilcox said hyoscyne was a gummy syrupy substance. In the organs examined there were two fifths of a grain and he thought in the whole of the body half a grain.

"Is that a fatal dose?" asked Olddie.

"Yes."

"What is a fatal dose?"

"From a quarter to half a grain."

"What is hyoscyne?"

"A powerful narcotic poison. It is not a common drug. It effects produces a slight delirium or excitement, the pupils of the eyes become paralyzed and the muscles of the throat becomes dry. Then the patient becomes drowsy and unconscious and remains practically paralyzed. Death would result without recovery in something under twelve hours."

By the Chief Justice: "Assuming the dose in this case half a grain, how long would the drowsy state last?"

"Under an hour."

Answering a question by Olddie, Wilcox said hyoscyne was given internally nearly always by means of a hypodermic injection under the skin. It was used as a powerful sedative in cases of delirium or inflammation of the brain and hysterical tremors, some times combined with morphia. It was always in tablet form. It was not used as a homoeopathic remedy in England or America. It has rather a salty taste but might be unnoticed if

THURSDAY, OCTOBER 20, 1916

Even if Walter Wellman didn't get across the ocean, he has rid himself of the reputation of being a huge bluffer. After having been going to do so many things for so long a time, it was absolutely necessary for him to take a real chance.

"Senator McGregor," says a dispatch from Halifax, "has finally consented to accept the lieutenant-governorship and the appointment is expected to be made at Ottawa today or tomorrow."

Has the political millennium at last arrived? Are lieutenant-governors really seeking the right man to fill them, rather than being regarded as, along with senators, the highest form of party pay?

## SENATOR JONES' FEAR

Senator Melvin Jones in the interview which he gave the Capital yesterday, laid stress on what would happen if reciprocity with the United States in manufactured goods came into effect. "Large Canadian industries would immediately move to Chicago and Pittsburgh. However, as no one is asking for absolute reciprocity, there is no need to worry on this account. All that has been asked for in connection with agricultural implements by those speaking on behalf of the Western Canadian farmers, is a reduction in the duty. Mr. Langley, M.P., who has been their principal spokesman, suggested 12 1/2 per cent, instead of 18 per cent. This is surely not very radical and does not show any great disregard of the interests of Eastern industrial centres. There is no question that complete reciprocity would have a serious effect upon some of them. But in course of time they should be quite strong enough to stand open competition. We must move towards this end gradually but in the interests of justice to the mass of consumers and of sound economic policy, some move should be made."

## ARCHDEACON GRAY'S WORK FOR THE BOYS

The movement, inaugurated at the meeting held on Tuesday night in All Saint's school room, to carry on the work which Archdeacon Gray has been so actively associated with for six years past, that of the Boys' Brigade, is one which should receive the heartiest kind of support from all citizens. It is proposed to affiliate with the Boy Scout organization, in which so much new interest has been aroused of late by the visit of its founder, Baden-Powell, to this country. As to the benefits of the training which the boys receive through the formation of these corps there can be no question. They enforce lessons of discipline and courage and true manliness at an age when a youngster requires the most careful handling. To Archdeacon Gray the people of Edmonton are under a great debt of gratitude for what he has accomplished in this connection. Success has been accomplished by the exercise of an unusual amount of persistence and good sense. After having carried the system so far, it is only right, with the very heavy burden which his other duties involve, that he should be relieved of the responsibility, which he has carried so cheerfully on his own shoulders. His call for the formation of an organization with a wider scope has been responded to with alacrity and there should be no doubt about its being placed on such a basis that the brigade may come to be recognized as a permanent institution.

## What Others Say

WHY ARE THEY SAD?

"Who is that man at the next table with the downcast, sad, resigned expression?" asked the guest at the club. "I don't recall his name," replied the host, "but he is either a Republican or married to a suffragette; one can hardly tell them apart nowadays."

## MEDICINE HAT'S INDUSTRIAL TROUBLE

(Monetary Times)

"That the pen is mightier than the sword seems to be the firm conviction of the former managing director of the Western Canaries. Accordingly he started out with his doughty weapon, and the slaughter was great. On an old enemy appeared on the brilliant horizon of the situation and the weapons were the same, and the enemy a little more practiced warrior. The Monetary Times and P. H. Malcolm accordingly were hard at it. Malcolm is going after the directors of the present concern and the Monetary Times is pummeling Malcolm. Both have drawn blood on several occasions, but apparently neither are out of business yet. In the meantime there is much speculation, both in Medicine Hat and elsewhere, where the fame of Malcolm's Western Canaries has gone abroad, as to what will be the ultimate outcome of the fiasco."

## GOING TO THE BAD

(Ottawa Free Press)

Dr. J. A. Macdonald isn't leaving much about Mexico unwritten in his daily letters in the Toronto Globe. The other day he talked about the senators with dark eyes. We didn't mind that so much because we knew that the reverend editor always had an eye for beauty. But now he's gone and tried out the native drinks. He didn't think much of them either. He says: "I saw the whitish pasty-looking liquid, but the look of it and the smell of it were enough. I know of nothing with which to compare it except a compound of sour cream, erythronium and stale beer. When did they ever have stale beer around the Globe office, and what does the rev. editor know about it? Proceeding he says: "But if I put, fermented from the sap, is stupefying, requita, the distilled liquor, is fiercely alcoholic. One could drink large quantities of pulque, but a glass of requita insinuates to the point of madness or murder. Mexico must be an awfully bad community, and it was no place to send the Globe editor, now, was it?"

## WANTED; 7 MOTHERS

There Are Seven Homeless Children Here, Who Lack a Mother's Love and Care.

It must be admitted that the most optimistic Children's Aid society worker has been surprised—yes, that is the word, at the readiness with which kind and responsible men and women have received little homeless children into their lives!

The helplessness of a homeless child appeals directly to the best in manhood and in womanhood alike. "I want a boy with blue eyes and black hair—now please remember, blue eyes and black hair" writes in a mother who has room for an orphan babe. "We and I want a little girl and would prefer one who would like to be tall and fair." These are representative requests from people who are willing to take into the warmth of parental love some hangering little child.

We have seen many a good woman from our Children's Shelter where little ones have held out their arms to her and smiled upon her with so many of the coaxing wiles of babyhood that the

woman has been utterly bewildered in realizing the real human need, the baby yearning.

The impetus of a woman and a babe often in a few calm moments solves the problem of mutual sympathy and adaptation. Preconceived preferences unconsciously slip away. Blue eyes or black are of little consideration where mother love holds sway.

At the present time, in the Shelter at Edmonton four little orphans for adoption and also three children between the ages of six and two years.

The descriptions are here given and any individual who can supply the necessary credentials will be gladly welcomed as a prospective parent for one of these children. The foster parent who secures a child from this group is sure of much satisfaction for the children are bright and sociable in every sense of that phrase.

Application should be sent to The Superintendent of Neglected Children, Edmonton.

Baby B. has beautiful blue eyes, so big and trusting you can hardly realize she is only three months old. She has a refined oval face. "A dainty little girl," says the attending physician, "but just, starving for mother love—for a mother all her own!"

Baby E. is a very strong boy for six weeks. He is addicted to catching the Mazon's arm when the baby first appears and holding on with most of his weight. If you have seen your heart on dark hair and blue eyes just keep this little in your mind's eye for while he's not old enough to be particularly handsome, you may state it to his credit that he hasn't a lazy bone in his body.

Baby E. is a darling. She is about eight weeks old, a little pale today but baby-complexions change like kaleidoscopes. Baby E. is thoroughly good tempered and always ready to respond to a smile. The woman who gets her will incidentally carry off a cornucopia of love and helpfulness.

Baby D.—boy, about two months of age, dark blue eyes, very neatly built—a winsome little fellow. He is picked up like a pan of hot cakes.

Then there are three blue-eyed two heads. They are Hungarian children and most desirable in every way. The eldest is a very aged son. He is a bright, manly, capable little fellow. The second child is a girl of four and a more desirable child would be hard to find. A baby of two years completes this little family. Father's desires.

With the people of Alberta, rest the futures of these homeless little children.

## TO TREAT UMBRELLAS.

Umbrellas require a great deal of attention to keep them in good repair. But at the same time they are well worth it, and repay all trouble. How often have our bonnets and hats been saved by them from rain when we have been caught in a sudden downpour with no shelter near?

After one of these downpours, on arrival home, the umbrella should not be stuck in the stand and left to drain, as the moisture, gradually accumulating in the silk just above the ferrule, causes it to rot and go into holes in a very short time. It should be placed open in a dry, airy room until it is thoroughly dry. Many people roll up their umbrellas while still damp, and then think the silk must have been common when they find it in holes.

When put away, the umbrella should be left unrolled, for if it is constantly kept in a tight roll the creases are apt rapidly to wear through. One's best silk umbrella should never be put in the stand where the common-property ones are kept, as anyone coming in in a hurry, and placing stick or umbrella in the same place, is very liable, unintentionally to poke a hole right through, and no amount of darning or covering the place with dark court plaster will ever restore the umbrella to its pristine beauty.

## "DOVERCOURT"

Is the Hit of the Season

Watch the development in the West End of the city in 1911. It is easily the best Sub-division on the market today.

Your chances are narrowing as these lots are selling fast. Just think, lots left out of 242, and only on the market ten days. They have nearly all been sold to citizens of Edmonton. Are you going to lose this last opportunity?

## PRICES AND TERMS

\$150.00 per Lot  
\$10.00 Down  
\$10.00 per Month  
Lots are 50 ft. x 140 and 50 ft. x 168

Why are people buying in Dovercourt? Because it is the best investment inside of the City Limits.

Dovercourt is situated on Alberta Avenue, inside the city limits, within two blocks of the City Park. Remember, this is your last chance to buy property at first prices inside of the limits in the West End.

## THOSE WHO SENT THE TELEGRAM

Identity Revealed of Cobb's Disgruntled Team Mates—Pitchers Hated the Peach

One feature which showed up plainly during the past American league season was the intense dislike manifested towards Cobb by his Tiger team mates. The St. Louis Post-Dispatch has this to say about it: "Perhaps the most unkindly trick that ever was turned in the baseball world was the action of certain Detroit players when they wired to Larry Lajoie: 'Glad you won.' The men who turned this trick must have been pitifully warped by jealousy to turn down a team mate in such pointed fashion. They might have displayed their friendliness to Lajoie by wiring 'congratulations,' and that would have been the sportsmanlike trick to do. But to deliberately manifest their pleasure at the defeat of their own comrade is next door to treason. Here are names of the men who had enough fish-blood in their veins to pull this 'baseball' world's worst trick: Mulren, Willett, Summers, Dave Jones, Moriarty and—sorry to add—Tom ones.

"The act tells better than anything else how very unpopular this 'Tian' of Detroit must be to his fellow players. If Cobb is so very much out of favor with his own team mates, what must he be with players of rival teams? And what a tremendous testimonial it is to the accomplishments of this same man, in the face of opposition on all sides. Lajoie never could have faced the combined attack of all baseball and still been fighting for first honors."

### HAMMERED THE GIANTS.

New York, Oct. 20.—The Americans tell upon the Nationals' pitchers, Ames and Wilts, and hammered their curves all over the ball yard yesterday, and won the sixth post season game by a score of 10 to 2.

Nationals..... 2 10 2  
Americans..... 10 14 1  
Batteries—Ames, Wilts, Myers and Wilson; Vaughan, Quinn and Crier.

### WHAT A LOVELY WORLD!

If it were possible for the men who worked like galley slaves on the football field on Saturday to display the same energy on Monday what a beautiful world we should live in—Calgary Herald.

## RECORDS MADE BY ATHLETIC PITCHERS.

The records of the Athletic pitchers participating in the world's series, are:

Coombs.....	W. L. T.
Pender.....	20 9 3
Plank.....	18 10 0
Morgan.....	18 13 1

Of the other fourteen games won by Harry Kinsie won six, Dygert four, Atkins three and Lefty Russell one.

### BIG FIGHT FILMS.

The pictures of the Jeffries-Johnson fight which have caused almost as much talk as the battle at Reno itself, will be shown at the Thistle Rink on Friday and Saturday. There are 6,000 feet of film in the series which are said to be the finest ever turned out by the studios. The films open with scenes at the training camps of the two champions. Both are seen doing road work, shadow boxing and sparring with their partners. Then the preliminary change to Reno where all the preliminaries of the battle are shown. There are the streets of the city packed with fistie followers who come from almost every corner of the earth. In some cases so clear is the film one can pick out friends in the crowd. Then the long line of ticket buyers are shown before the entrance to the arena, after which the pictures change to the ring and the battle is on. Whatever may be thought of the fight, there is but one opinion and that is that they are the latest and best thing in moving photography.

### HE IS SOME GUESSER.

According to custom, established several seasons ago, E. N. Vert has been asked to tell our readers just how every game in the world's series will come out, who will pitch, who will catch, and what the score will be. Vert hasn't guessed right since 1906, if then, but he is far from discouraged. Here is his dope:

Monday, Oct. 17—Cubs 82, Athletics 16; Batteries: Kroh and Kling, Waddell and Schreck.

Tuesday, Oct. 18—Heavy hailstorm with high wind blowing in from Atlantic City.

Wednesday, Oct. 19—Athletics 6, Cubs less than that; Batteries: Sheridan and Connolly; O'Day and Riger.

Thursday, Oct. 20—Teams travel to Chicago. Washout east of Harrisburg, but no fatalities.

Friday, Oct. 21—Cubs 1; Athletics 1; Batteries: Terry and Kittredge; Ross and Clarke.

Saturday, Oct. 22—Rain.

Sunday, Oct. 23—Rain.

Monday, Oct. 24—More rain.

Saturday, Nov. 26—Commission calls off series—Chicago Tribune.

## MONTREAL TRAINING RULES

### Chancer Elliott's Method of Preparing His Players—Early Morning Practises

Training for a football match! It seems a simple thing to do. In the days of the veterans the idea of training as done now was not thought of or attempted, although the old players used to make slight preparations for the battles on the field.

However, at present every precaution is taken so as to have all the players in the best of condition for the day of the battle.

A good example is shown by the way the Montreal Football club management look after their men. Some thirty-five small beds have been put in the club-house at the grounds in Mount Royal. The players are up at 5:30, when "Chaucer" Elliott, who looks after the players, after having selected a nicely-shaped patron, pays a visit to each sleeper just to remind him that the morning has arrived.

It is not any means a case of jump into your suits with the players, for the majority prefer to lie a short time longer in spite of the threats made by the worthy coach. Soon, however, the players, after grunting and protesting, leave their coveted beds and get into their football coats.

Then all the players both juniors and seniors, are put on the field, and the early morning practice is at once started.

After a hard day's workout under the instructions of "Chaucer" Elliott and a number of the old players, the men all swarm towards the clubhouse, where after washing and tidying up a bit, they sit down to breakfast.

Two long tables are arranged on the upper floor, and at these the players sit down for their early morning meal. Eggs are the chief order, raw and in every other condition, and the players, both big and small, join in the feast to see which can down the biggest number of these. In fact, the competition between the players at the breakfast table is nearly as keen as on the gridiron, and each morning they have a contest to see who can down the most. Records are even kept, the holder of which to date is one of the halfbacks.

The majority of early birds make

for their beds at once, but hold long conversations among themselves until at last the love for sleep calls them on by one to seek the pillow and mattresses. Several jokes are sprung on certain of the players, which are greeted by loud bursts of laughter, but these only last for a short time, and finally serious regimens in the big hall where the players put up for the night.

No eventful occurrence happens during the sleeping hours until about 5:30, when "Chaucer" Elliott, who looks after the players, after having selected a nicely-shaped patron, pays a visit to each sleeper just to remind him that the morning has arrived.

It is not any means a case of jump into your suits with the players, for the majority prefer to lie a short time longer in spite of the threats made by the worthy coach. Soon, however, the players, after grunting and protesting, leave their coveted beds and get into their football coats.

## COBB DECLARED THE CHAMPION

President Johnson Figures Tiger Is Trifle Ahead—Lajoie Also Gets a Buzz Buggy

Chicago, Oct. 20.—Tyrus Cobb, by official verdict of President Johnson yesterday, was the leading batsman of the American league during the last season, with a winning percentage over Lajoie of Cleveland of .00860. As the National leaguers dropped out of the batting contest some time ago, President Johnson's announcement means that Cobb is the champion hitter of the country.

The automobile, over which trophy there has been so much excitement and not a little criticism, goes to the Detroit, but the Cleveland captain, by permission of Mr. Johnson, will be allowed to accept a duplicate.

The batting record of Lajoie and Cobb, as turned in by the official scorers, and approved and promulgated by Mr. Johnson, is as follows:

Player	A.B.	R.H.	P.C.
Cobb.....	599	196	.38044
Lajoie.....	591	227	.38493

Third Baseman Corbiden of St. Louis is vindicated in the statement and Empire Evans is quoted as declaring that only were Lajoie's eight hits all legitimate, but that he really should have been credited with nine hits.

Mr. Johnson stated that he has requested President Hedges of the St. Louis club to make a formal charge that someone connected with his club attempted to influence the official scorer.

President Johnson's Statement.

A thorough investigation has satisfied me that there is no substantial ground for questioning the accuracy of any of the eight base hits credited to the player Lajoie on the Cleveland club by the official scorer in the double-header on Sunday, Oct. 9, at St. Louis, and all of them have been admitted to the 1910 batting record of the American league.

"It is a matter of comment that Lajoie frequently resorted to the bump in the later stages of the present race. I desire to call attention to a declaration by Mr. Evans in his report that in his judgment Lajoie was entitled to nine hits instead of eight. When the National league's candidate for the automobile trophy had been eliminated by the phenomenal records of Cobb and Lajoie, the attention of the baseball world was focused on the daily performances of these grand batsmen, each representing a distinct type. As interest increased, the participants of each became more pronounced and the feats of these popular favorites were played up to the neglect of other features, including the position of teams."

"At this point in the statement Mr. Johnson gives the batting averages as already quoted, and continues: "This margin is meager and due to the contestants having during his connection with the American league, contributed much to its prestige by magnificent batting and all round work; but I will certify to the national commissions that Cobb has a clear title to the leadership of the American league batsmen for 1910, and is, therefore, entitled to the trophy, as much of the National league batters approached his record."

"The American league president states that he has accepted of the request of the manufacturer that the letter be allowed to present Lajoie with a duplicate of the prize which goes to Cobb."

Cobb Much Pleased.

Philadelphia, Pa., Oct. 19.—"Ty" Cobb was extremely pleased when informed by the Associated Press that he had been declared the champion hitter of the American league.

"I am glad I won an automobile and am especially pleased that Lajoie also gets one.

"I have no one to criticize. I know the game was on the square, and I am greatly pleased to know that the affair has ended so nicely."

## CITY LEAGUE MORE IMPORTANT

Calgary Football Players Consider Their Local Games More Than Provincial Series

(The Albertan.)

"If Calgary does not play in Edmonton on Saturday next, the championship will go by forfeit."

Such in substance is what the Y.M.C.A. got over the wire last night, and it was signed by C. J. Belanger of Edmonton, who is donor of the cup, and accordingly is supposed to have some say in the way it is to be arranged.

The telegram is somewhat misleading, because it does not say just what team will forfeit, or who will get the championship, but it is assumed that it is the Edmonton team that is to get the championship.

The despatch is somewhat surprising, because Mr. Belanger knows the conditions, and is aware of the fact that the winner of the Calgary series was to play Edmonton, and that no winner has been determined and cannot be determined until next week.

Until a champion is selected no team can play in Edmonton for the championship.

It is barely possible that Mr. Belanger's telegram has been wrongly sent, and he meant Saturday, October 29, to which there might be a reasonable excuse for the position he takes.

However, it is certain that the Tigers and the Y.M.C.A. will keep going until one or the other wins out in the strife. These city games are more important at the present than any inter-city games could be.

## RUGBY AT U. OF A.

There is the prospect of a rugby match on Nov. 5, between the University of Alberta and Western Canada College, Calgary. The southern school sent up a challenge and it is likely the deal will be accepted.

The Strathcona university students have a wealth of good material and are already practicing hard for the match.

## JEAN SET UP A NEW RECORD

Established a New Mark of 2:04 1/2 for Four Year Old Trotters

Lexington, Oct. 20.—Jean, the Directum Shire mare, owned by Captain David Shaw, of Cleveland, yesterday won the Walnut Hill Farm Cup, the feature of the Kentucky Trotting Horse Breeders' Association meeting. She won in straight heats and established a new world's record for four-year-old trotters, going the third heat in 2:04 1/2, a half second better than the record of her grand-sire, Directum, of 2:05 1/2, made in 1893.

Jean was seen! all three heats to the head of the stretch, but came strong each time in the finish and won easily, though pushed for a record in the final round.

The Harvester broke the world's record for two miles, trotting the distance in 4:15 3/4, one and three-quarter seconds under the mark set by Crescents in 1902. Allen Wilson, owned by John W. Coakley of Boston, paced a mile to a wagon in 2:04 1/2, and beat the world's record made by Edith W. in 1904, by a second.

The 211 trot, carried over from yesterday resulted in a straight heat victory for Fair Margaret.

WON TRENHOLME CUP.

Tom Stight, Champion Walker of Manitoba, Was Victorious at Winnipeg.

Winnipeg, Oct. 20.—Although a number of entries did not compete, owing to the inclement weather, no less than 28 entered the three-mile road handicap of the North End Athletic club, Tom Stight, Manitoba champion walker, won the event and the Trenholme cup with the aid of his handicap of 2:30, in 19:48 net. J. Breckett with 46 seconds handicap, was second in 18:02 net and J. Keppel, scratch, was third in 17:24. In all six men finished in less than 19 minutes.

### AT THE THEATRES

LEWIS & LAKE COMING.

Edmonton theatre-goers will be delighted to learn that we are to have the Lewis & Lake Musical Comedy Co. with us for a fortnight's engagement before their return to the coast. Arrangements have been made for the company to appear at the Lyceum for a fortnight playing two bills weekly. The company carries a large cast of excellent principles, scenic scenery and electrical effects and of course a chorus of dancing girls which no musical show would be complete without. The bills for the first week commencing next Monday, Oct. 24, will be "The Rollicking Girl," and "The Ten Thousand Dollar Beauty." Good clean comedy, with nothing to offend, plenty of scenic scenery, and the graceful dancing girls go to make up one of the strong features of the Lewis & Lake company. High class vaudeville and moving pictures are carried by this company as an added attraction. Three shows will be given daily and there will be no raise in prices.

#### LAST CHANCE.

Tonight is your last opportunity to enjoy the crowning masterpiece of silent drama "The House With Closed Shutters" which has drawn such large crowds to Starland the last two days. The picture throbs with the spirit of '76. You can hear the roar of the guns and the cries of the wounded. The great fight passes before you and gives a more graphic impression of the times than you ever had before. There is danger stalking abroad seeking whom it may devour, there is love, and standing in strong relief there is the daring and courage of a woman to save her brother from dishonor. The whole story is powerful in detail and truly touching in its simple pathos. This is a picture in a thousand which no one can afford to miss.

#### THE MIMIC WORLD OF TODAY

Noradays melodrama, taken universally, although perhaps unfairly as a whole, is repulsive to many. Some playgoers will no longer stand for the mortgage-stealing plot; they will not put up with the proverbial mother-in-law furnishing all the comedy; nor will they remain content with but half a dozen a blue bloody murders to fetch about a happy reconciliation and grand finale. The day of the barnstormers are over. The villain no longer "pursues her," but has shaved off his moustache, panned his walking stick, and taken the "stage," or some other "vehicle" to "caudeville."

Today is the day of the problem play. Just what a problem play is still a problem. However, the after effects are usually a depressing feeling about your disposition, a dark

own taste in your mouth. When the curtain goes down after the suicidal shot, which, although you have expected it for the last ten minutes, "shatters your vision and poses the question to antiheroes: when you rise from your seat, put on your hat and forget to assist your partner with her opera cloak, and then walk out of the side entrance, not to look your fellow sufferers in the face. It is the one best bet that the current bill is what they call a problem play. Shakespeare is still holding down the boards, but the high class venality of the vote of the groundlings and gallery gods who voice their criticisms during the progress of the play, with such encouraging remarks as "Pipe de guy veil de Marcel wace," "Git on 't de job's kanon," all of which, of course, add interest to the particular hero or heroine of the hour. The question is: What kind of a play will please every ticket-buyer that passes the door, also those critical few who are lucky enough to come in on "paper"? That clever farcical comedy, "A Bachelor's Honeymoon," that is to appear at the Empire Theatre, and the rest of the week, will answer the question. See if it doesn't.

### A MOVEMENT THAT SHOULD BE AIDED

Many Prominent Citizens See Power for Good in Boy Scouts Movement.

That the Boy's Brigade Cadet and Scout Association will do an enormous amount of good in the training of the young citizens of Edmonton seems to be the opinion of everyone who has had anything to do with the association or who knows anything of it.

This morning a reporter from the Capital interviewed several of the officers connected with the movement and they all gave their unqualified approval of the scheme.

Major Griesbach who is one of the prime movers in the work, said that the objects of the association now was to get together sufficient funds to carry on the work on a larger scale, and to find a hall where they could be drilled, as the place that they at present occupy is wanted for church affairs. A committee for this purpose has been selected. Messrs. Griesbach, Suckling and Watson, who will hold a meeting next Tuesday to decide what ought to be done in the matter.

Captain Carpenter, when interviewed on the subject, said that he thought it was the most excellent scheme for the training of the future citizens of our city.

"The boys," he said, "are taught to rely on each other, and to help each other in times of need. They are drilled and exercised so that their bodies may be developed properly and at the same time a proper atmosphere is created around them and they are taught to be manly and live uprightly, and so develop into good citizens."

"You ought to see some of them when they are drilling in their hall on Fourth street," he said. "It is really a fine sight. They are a healthy well disciplined lot of youngsters, all with the making of good citizens in them."

Mr. McCoppin who is greatly interested in the movement, said that it was the best educator for the moral welfare of the future citizens of Edmonton that could be found. The association tend to raise the standard of morals of the boys to a higher plane. Last year he visited the summer camp in person and he says that he has reason to know that the association and teaching was such that would be of great benefit to any boy.

"The movement," said Mr. McCoppin, "should be supported by everyone whether they have children of their own or not, in the interests of the city and future citizens."

Mr. Thos. Lee who is sergeant major in the A.M.R.'s, said that he was very much in sympathy with the movement. "The work," he said, "is done mostly among the young boys, the ones that belong to the Y.M.C.A. It is a systematic training. The corps is a semi-military one and we get a number of them afterwards in the A.M.R.'s and they show the benefit of their training in the Scouts. We only wish that we could get more of them."

The object is a very worthy one. Mr. Lee said, and Mr. Gray has done wonders towards training the boys, both morally and physically, and making them fit for future citizenship.

### THE BIBLE STORY TOLD LAST NIGHT

Prof. Broadus Gave Interesting Address on Origin and Value of the St. James' Version.

#### HISTORY OF THE SOCIETY

Dr. Tord Told How British and Foreign Bible Society Came Into Being.

A most interesting paper on "The Influence of the Bible on English Literature" was read by Professor K. Broadus at a meeting of the Edmonton branch of the Alberta Auxiliary of the British and Foreign Bible Society held in the First Presbyterian Church last evening. The professor took three different aspects of the question: (1) The literature of the Bible; (2) the influence of the Bible on the literature of these versions; (3) the influence of the Bible on the literature of the present day. He began, "or to seem to criticize in any way the style of the greatest of books. We must always remember that the Bible contains the groups of literary phases, each in itself perfect. Take for instance the wonderful biographies, of which there are four, of the life of Christ. It gives anything more perfect in English literature, than the marvellous pictures, the vivid accounts of the life of our Lord, as told in the four Gospels."

Dealing with the second point, he went on to show how numerous the different versions of the Bible that have been made, beginning in the seventh century, when a number of paraphrases of the first books of the Bible were written, and when Bede made the first translation. King James' version, is even said to have translated the whole of the book, and it is certain that he translated portions.

In the tenth century there were interlinear translations made, but nothing more was done until Wycliffe, in 1380; Tyndale's in 1530; Cromwell's in 1534, and the Geneva version, were given to the world. Then in 1581 the authorized King James version was completed. "The Bible," said Mr. Broadus, "is the King James version, and we ask the question, 'How did these fifty men who made the translation, produce such prose greater than any that has been composed? In the first place they were working on the greatest of all works. A work that must have uplifted them and made them feel that they were working for and aiding the uplifting of the people of the world. Then they had for their guidance the best of all the preceding versions. Then too, at that time the English language was just beginning to find itself, as it were, and was becoming more and more a language. And how it is undisputed that the King James version is the version and the authority for the church."

"At the time that this version was compiled the Bible had a great influence on the people and on their language. They began to use expressions used in the Bible and to express themselves in the same manner. Bible stories were used as the basis for religious plays, as they even are at the present time. In the first place, the plays of Steven Phillips, Strains' 'Solomon.' The Bible was used as the subject of paintings by the old masters, and the Bible stories turned into verse such as Milton's 'Paradise Lost.'"

"Particular points to be noticed about this King James version," said Mr. Broadus, were the condensation of phrase and vividness of style, and its simplicity and directness, making it the best and only possession of our English tongue.

Dr. Tord, the principal of the University, then gave a short address on the aims and work of the Bible Society. "The story is told," he said, "of the beginning of the society being through a little Welsh girl that was very poor but who had a great longing to read the Bible and possess a copy of her own. She saved up for a long time and when at last she thought that she had enough pennies to buy a copy she walked twenty-five miles to see a man who she thought could sell her one, only to find that he had sold his last copy. This little story so worked on the brain of this man that he conceived the idea of the Bible Society. This happened in about the year 1804, just at the time when England was passing through a crisis. Napoleon was at the zenith of his power, and England was threatened at any moment by an invasion. Since the Reformation, however, the Bible has been behind every movement for the moral and spiritual uplifting of the world, and the Bible Society lived through the crisis to become the great institution that it is today."

"The aim of the Society," said Dr. Tord, "is to give the Bible to the people in the language of the people. The Society has since its beginning printed it in no less than 230 languages, and it has at the present day 1100 men travelling into the remote corners of the world carrying Bibles with them and distributing them as they go. The Society has printed 220 million since it began its work, and fifteen million copies were sent out."

In conclusion Dr. Tord said that according to people who know there are four great nations or divisions in the world in the future are going to be the English, the French, the Chinese, India, China and Russia. Of the first between 20 and 40 per cent of the people are illiterate. In India there are still numbers of the people who do not know the Bible. In Russia there are 120 millions, many of whom do not know of the Bible although Russia is the freest country in the world in the way of distributing. Even free transportation for the Bible is given by the Russian Government in order to aid the work. And China—I am not a believer in the 'Yellow Peril' scare, but in the land there are 400 millions of people. Give them a civilization, a learning without the restraining influence of God's Word, and who can tell what 100 years will bring forth."

Between the address the choir gave a very fine rendering of the beautiful anthem "Hark My Soul," and at the conclusion of Dr. Tord's address Mrs. Ethel Webster sang "Come Unto Me." Mr. Watts accompanied her on the organ.

### EXPECT TO GET.

(Continued from Page One.)

of the committee, Messrs. Magrath and Aldrich who got in an auto and drove over the river for their man. "I took them two hours and a half to persuade him, but when he signed the cheque, he said: 'I've given it now and am proud of it.'"

"Well, we got a rough ride home with Mr. Magrath, but we didn't mind it. Mr. Aldrich was shaken around considerably but managed to rasp out between pitch holes: 'Well this ride is worth \$2000 anyway.'"

"I ran up against one man," he continued, "who would have nothing to do with us. When pressed for a reason he had none and I told him the instance of Miss Helen Gould giving \$50,000 for a marine Y.M.C.A. to which Mrs. Sage built a \$200,000 addition when it became crowded. 'How much did the women get out of it?' I asked. 'How much do we make out of this campaign?' Nothing, and we lose the sole leather we wear out."

"But we've got to wear out more," he added, and he echoed the thoughts of the men around him for they cheered him again as he sat down. Mr. Ward's voice was glad as he spoke to the men of their day's work. "This looks good to me, boys," he said. "By the way, I have analyzed thirty-four of yesterday's cards which were since turned in. There were one real; eleven were the mark; sixteen reached the mark; five were beyond. I enjoy reading these cards. Now, fellows, one man in Edmonton said to me: 'The money is here; it's for you to get it. There are ten men here worth \$50,000; it's up to you to get it.' We are going to."

An incident of the morning shows the interest in the campaign among the men on the street. A poor man who availed himself of the use of the Y.M.C.A. gymnasium bath, had only the dollar which he paid the charge. "I can't give you much, boys," he heard a quarter, and his generosity spurred the men to fresh efforts among the men more fortunate, but not more liberal.

### MUNICIPAL POLITICAL MEETING

Friday Night, 8.15 Sharp

PURSUANT TO INSTRUCTIONS OF THE COMMITTEE, public Notice is hereby given that there will be a Meeting of Ratepayers, Electors, and Citizens of Edmonton, in the

### SEPARATE SCHOOL HALL.

On Friday, October 21st, 1910, at 8.15 p.m. Sharp.

To organize an Association to take action on Municipal matters. The following Order of Business will preside: 1. Discussion of the Report of the Committee, recommending that an Association of Citizens of Edmonton be organized to take such action as the majority may decide on Municipal questions.

2. Consideration, adoption or amendment of the Draft of a Constitution which will be submitted to the said meeting, by Sub-committee appointed to this purpose.

3. Election of Officers of this Association when so formed.

4. Such other business as the Association when so formed may wish to transact.

By direction of Sub-committee Mr. A. H. Peier, is designated as Convener of this meeting and he (or his representative) will call the meeting to order at 8.15 p.m. sharp.

IN ACCORDANCE WITH INSTRUCTIONS.

"EDWARD L. WRIGHT" For Committee.

DID PLASTERERS CAUSE STRIKE

(Continued from Page One.)

of other trade associations were unable to consider the matter of calling a meeting of the Master Plasterers' Association before October 17th. At a meeting of the Master Plasterers on Monday we were prepared to consider an agreement and also to appoint a committee to meet the Union on the 18th, satisfied in our minds that they would at least work till Tuesday night at which time some understanding might have been arrived at. But at a meeting of the Master Plasterers on Monday evening word came that the plasterers' Union had at a'clock decided to cease work on all jobs in the city."

**Russell**

**"30"**

**\$2,510** Specially Equipped

Made up to Standard, Not down to a price.

Easily the best value in the market. Let us prove it.

**Russell**

**Russell "30" for 1910** has been the biggest success of the year. Russell "30" for 1911 is an even greater value than its predecessor.

The car will now have 32x4 inch tires both front and rear. Spark and throttle control levers are of an improved type. A foot accelerator has been added. Better lamp equipment is given, including high beam lamps. A type of dash board, allowing attachment of glass front without the use of filler-in-board. The car has the popular high top on wheels, introduced to Canada by us last season, and now universally demanded.

Its powerful engine (save for improvement) is the same as the one used in the 1910 model—certainly by recommendation enough to all familiar with its past performance.

Russell "30" has the following styles of bodies: Five passenger touring, top convert, and special coach. Its wheel base is 115 inches. It has standard construction, including shaft drive, selective transmission, full floating type of rear axle, etc.

## SEWERAGE AND WATER PLANS FOR CITY OUTLINED BY EXPERT

Alexander Potter of New York, Engaged Six Months Ago, Presents Report on Extensive Sanitary Systems for Edmonton

Resume of Expert Potter's Report on Sewage and Water Systems

**Sewage System**  
Cost of sewer system \$4,000,000  
Provision for city of 250,000 population. Sewage will be drained into tunnel sewer ten feet six inches in diameter, to be carried from present Rat Creek outlet to the river along the eastern boundary of penitentiary property.

**Cost of Rat Creek tunnel sewer** .....\$137,000  
**Outlet** .....25,000  
**Connection with system** .....7,000  
A storm drain for St. James district. A district sewer for Bellevue district and the territory east of the city as far as Packerington. (This district is out of the jurisdiction of the City of Edmonton authorities.)  
A disposal plant of 85 acres of land on south side of river opposite penitentiary.

Sewage to be carried beneath the river to disposal plant by syphon. Both sewer and drainage from parts of city which can be economically carried below the city to be covered by system of conduits. At other points where the cost of conveying the storm water to a point below the city would be prohibitive, separate conduits to be installed.

**Provision for two drainage systems, in west end, one for draining storm water and the other for sanitary sewage. The other portions of city will discharge both via Rat Creek sewer.**

**Water System**  
Cost, \$400,000.  
Provision for city of 250,000 population.

Declares that proposal to establish pumping station at Pigeon Lake unfeasible. Present site suitable for future needs. Laurier Park (McGibbons property) entirely unsuitable as site for pumping station.

System of water purification to alleviate danger of contamination; hence location of pumping site in river immaterial.

In future, extensions of pumping plant, two stage system of pumping is desirable, viz: water should be raised from river level to that of filtration plant by low lift pumps, then pumped from clear water basin into distributing system.

Installation of new feed main and new standpipe in the northeast of city.

Two voluminous documents of over 100 typewritten pages, augmented by 24 detailed explanatory plans and three large plans of the city showing the present water and sewerage systems in comparison with the proposed systems, constituting the report of Alexander Potter, C. E., of New York City, which was laid on the table at the meeting of the city commissioners yesterday afternoon.

According to the reports of the recommendations of Mr. Potter are adopted accommodation can be made in both water and sewer systems for a city of \$250,000 population. The installation of the sewer system as proposed would cost \$400,000, while the water system would approximate \$400,000.

One of the important statements made by Mr. Potter is that Pigeon Lake is unfeasible as a site for a pumping station, and that the present site on Ross' flats is suitable for future needs. The proposal to establish the pumping station at Laurier park be dismissed as undesirable without comment.

"The city of Edmonton is not warranted either from commercial, sanitary or aesthetic reasons in discontinuing the water service from the present pumping station," he says.

He points out that the supply the city could anticipate from the lake would be 10,000,000 gallons per day, and until the city's consumption reaches that amount, water could be secured more cheaply from the river. When that time did arrive, however, when the cost would be the same, it would then be time for the city to seek other sources of supply. At the present time 30,000 gallons is consumed per day.

It is recommended in the report on

sewage that the sewage of the city be drained into a tunnel sewer, ten feet, six inches in diameter, to run from the present Rat Creek outlet to the river along the eastern boundary of the penitentiary property.

The cost of the Rat Creek sewer is estimated at \$137,000, the outlet of the sewer, \$25,000, and the connection with the system, \$7,000.

Mr. Potter states that both the sewerage and drainage from those parts of the city which can be economically carried below the city would be covered by a system of conduits. At other points where that would be prohibitive on account of cost, separate conduits would be installed.

The report makes provision for two drainage systems in the west end, one for draining storm water and the other for sanitary sewage. The other portions of the city will discharge both through one system to the Rat Creek sewer.

There are recommendations that a storm drain be constructed for the St. James district, and a distinct sewer for the Bellevue district and the territory east of the city as far as Packerington, which is out of the jurisdiction of the city authorities.

It also suggests the construction of a disposal plant on the south side of the river, opposite the penitentiary, covering 85 acres, the sewage to be carried beneath the river to the plant by a syphon.

The reclamation of land in Rat Creek valley could be made possible by the construction of the Rat Creek sewer. The cost would be \$100,000 for 80 acres.

Mr. Potter states that reinforced concrete should be used in construction.

The detailed cost of the sewage system is as follows:

**Combine Sewers.**

North central system, 40,200

acres .....\$2,286,324

Bellevue, 611 acres .....2,663,707

**Separate Sanitary Sewers.**

West separate system, 3,047

acres .....105,125

**Storm Drains.**

St. James storm sewer district, 1,250 acres .....34,562

West storm water district, 187 acres .....228,642

**Total** .....\$3,917,269

In the report on the water system outside of his references to the Pigeon Lake, the sanitation and the suitability of the present pumping site, Mr. Potter also recommends a system of water purification which would alleviate all danger of contamination and render it immaterial from what point on the river the water was pumped.

In future extensions to the pumping plant, the two stage system of pumping is recommended as desirable. The raising of the water from the river level to that of the filtration plant by low lift pumps, then pumping it from the clear water basin into the distributing system. It also recommends the installation of new feed mains and a new standpipe in the northeast of the city.

### CRIPPEN TRIAL (Continued from Page One)

given in something of a pronounced flavor like stout, beer, tea, coffee, or spirits.

"What in your opinion was the cause of death?" said Oddie.

"Poisoning by hyoscine," answered Wilcox.

The cross-examination of Wilcox was very technical and almost exclusively referred to the methods of analysis and the process by which he arrived at his conclusions.

The clerk from the chemist's said that Crrippen had ordered five grains of hyoscine, saying it was for homeopathic purposes. He had not five grains in stock so he got it from a wholesale house. The clerk had previously supplied Crrippen with cocaine and in every Crrippen's record on his position when he signed the poison book.

At the conclusion of the clerk's evidence, Crrippen signalled Tobin. Learning over the front of the dock he had a lengthy conversation.

Mrs. Harrison, a friend of Belle Elmore's, identified the hair as resembling Mrs. Crrippen's, also the underwear being like that worn by Mrs. Crrippen. Cross-examined, she described Crrippen as kind and amiable. She knew where the articles came from before she was asked to identify them.

This closed the case for the prosecution.

Tobin's opening words to the jury were that Crrippen would go into the witness box as soon as he sat down. Following Crrippen there would be eminent doctors to give evidence to the opinion that the remains might have been buried in the ground before the disappearance of Mrs. Crrippen.

## It's Hard to Keep a Good Man Down

Especially when he has the best line of Pianos and Organs to sell in Canada today. This enterprising firm unloaded a large car of Karn Morris Pianos and Organs—only five weeks ago and has disposed of more than the entire car in less than six weeks' time. Just look over this list of sales in six weeks. No mouth-organs or gramophones in this list of sales.

355 NAMAYO AVE., EDMONTON.

Also that the supposed hyoscine was an animal alkaloid.

Tobin intimated that he would criticize the evidence of the prosecution now at length and would speak quite briefly at the close of the case.

Tobin first referred to the publicity given the case by the press and urged the jury to exclude from their minds all influences and all those prejudicial paragraphs.

The outstanding feature was that Crrippen's reputation among his social friends and professional associates was that he was amiable, kind hearted and good-tempered. Yet they were asked to believe that the man suddenly became a fiend incarnate. The motive suggested was ridiculously inadequate.

Tobin then, speaking slowly, entered into an exhaustive statement, likely to occupy a good part of the afternoon. Resuming after luncheon he explained the card found in which Crrippen wrote threatening suicide. That was a plot to facilitate the escape of Crrippen, for learning from the quartermaster of the Montrose that he was to be arrested, Crrippen arranged with the quartermaster to be smuggled off the boat with the cargo, the card to be left in the cabin to suggest suicide. Leneve, who did appear a suspect, was to join Crrippen later.

**ABOUT TOWN.**

A special welcome meeting will be held at the Salvation Army Citadel on Fraser Avenue tonight to welcome Bandmaster Cohen of Hereford, Eng.

St. George's Football Club have arranged to hold a dinner and smoker to wind up the season. It will take place at Lewis' cafe on Wednesday, Oct. 26th, at 8 o'clock.

A public meeting will be held on Saturday next 22nd October in the Separate school hall, Third street, at 4:30 p.m., to discuss the formation of a ladies' musical club to include active and associate members.

Namayo Lodge, I.O.O.F., will hold an "at home" on Friday evening next in their new hall, corner Namayo and Griesbach street, to celebrate the opening of the hall. Oddfellows in the city are invited.

All the young ladies interested in the Halloween Dance to be held in Separate school hall on October 28, are requested to attend a meeting which will be held in Separate School hall on Saturday at 4:30.

The regular monthly meeting of the Builders' Exchange will be held on Monday, October 24th, in the Assembly rooms in McDougall court. At this meeting reports will be received from the board of directors recommending the affiliation of this exchange with the National Association of Builders. This move is the direct outcome of the visit of President Nesbitt and Secretary Lamer of the National Builders' Association some two weeks ago and it is up to the local exchange to say what will be done.

Land taxes paid on or before Thursday the 20th instant will be allowed five per cent discount, after said date until the 30th November three per cent discount will be allowed. Taxes will be accepted at par during December. On 1st day of January one per cent penalty will be added to all unpaid taxes and another five per cent on first day of July following—making ten per cent penalty on arrears of taxes for the year. Taxes are levied for the year from first January to 31st December.

**ARE THESE CHARGES TRUE?**

(Continued from Page One.)

Dead horses have been left unburied in the vicinity of camps infested by clouds of flies and these flies have, of course, varied their bill fare by visiting cook houses and dining tables with the certain result that typhoid has claimed many victims.

Some of these camps appear to have been nothing less than pestiferous centres from which disease and death have radiated in every direction throughout the province. It is not time that the general public should demand that proper sanitary regulations be enforced and that animals should be protected as well as men from the brutal treatment accorded to them by their employers.

If the truth was known as regards some of these camps, prompt measures would be taken to make sure that the disseminators of pestilence and perpetrators of diabolical cruelty should be handled as they deserve.

Contractors take care to get all their men and teams and the public should observe the laws of the land in relation to the duty that they owe to their employees and teams.

Any information sent to me on this subject I shall be glad to receive and to make use of. Yours faithfully,  
T. G. PEARCE.

Phone 2115 Empire Block

**Dear Madam:**

Since our notice of a change in the management of The Bon Marche, we have made a lucky purchase of choice furs of the latest Fashion Stock at a low rate on the dollar and we are placing the entire stock on a beneficial sale.

Early Shoppers get the Benefit

**The Bon Marche**

Next Reed's Bazaar, Corner of Jasper and Second Street,  
Don't Fail to Come Bring Your Friends

**Contractors, Attention!**

Our new electric floor surface smooths, sandpapers and polishes hard wood and soft wood floors, and does as much as six good men. It's still better on terrazzo floors. If you want to repolish an old floor try it with the brushes that go with it and see the wonderful results. Moderate rental per day.

**THE ELECTRIC CONSTRUCTION CO.**  
Second street, opposite Revillon's Phone 2914
